

Janina Bakarandze

UI/UX Designer

hello.janinab@gmail.com · +995 597 136 996 · Tbilisi, Georgia · [LinkedIn](#) · [Portfolio](#) · [Dribbble](#)

SUMMARY

UI/UX Designer with a **Doctor of Medicine** degree and the **Google UX Design Professional Certificate**. Designs digital products **end to end**, from problem definition and personas to **design systems** and **high-fidelity prototypes**. Medical background brings deep empathy for patient needs and a strong foundation for **healthcare products**.

PROJECTS

MediApp Georgia

Healthcare Mobile App · Concept project

Doctor discovery and **appointment-booking app** for Georgia. Defined the problem around patient needs, mapped **user flows** and built a **Figma design system**. **Usability testing** showed users getting stuck in doctor search, which led to a **"+" button that starts booking directly**, shortening the booking flow.

LearnHub

E-learning Web Platform · Concept project

Desktop platform for adult career changers: **persona, empathy map, user flow, wireframes**, a reusable **component library** and **5 high-fidelity screens**.

Activo

Social Activity Discovery App · Personal concept

Original idea for discovering local activities. Designed **onboarding, map discovery and filter flows**, prototyped iteratively in **HTML/JS**.

Personal Portfolio Website

Design & Front-end

Designed and coded a **responsive** portfolio in **HTML, CSS and JavaScript** with interactive animations.
